Suppression and Regulation of Immune Responses

Methods and Protocols

Over the past several years, a high diversity of regulatory cells and suppressive molecules has taken centre stage in the field of immunoregulation. In *Suppression and Regulation of Immune Responses: Methods and Protocols*, expert researchers highlight recent advances in the identification, characterization, and generation of regulatory cells not only of the T cell lineage but also of other origins such as B, NK, myeloid, and dendritic cells, as well as the role of several suppressive molecules in immunoregulation. Particular emphasis is placed on the characterization of the molecular mechanisms and the therapeutic applications of regulatory cells and molecules in human diseases. Written as a volume in the highly successful *Methods in Molecular Biology™* series, this work provides the kind of detailed description and implementation advice that is crucial for getting optimal results. Comprehensive and cutting-edge, *Suppression and Regulation of Immune Responses: Methods and Protocols* serves as a key reference for scientists seeking a way toward greater control over the enormous power of the complex and vital immune system.... *more on <http://springer.com/978-1-60761-868-3>*

2011. XVIII, 473 p. 78 illus., 6 in color.
(Methods in Molecular Biology, Vol. 677)
Hardcover

- ▶ **109,95 €**
- ▶ **\$139.00**
- ▶ **SFr. 158.00**
- ▶ **£99.00**

ISBN 978-1-60761-868-3

A product of Humana Press

- ▶ Details advances in the field of immunoregulation Contains many step-by-step, laboratory protocols complete with lists of materials and vital notes from the experts Includes chapters on physiological situations where immunoregulation play a central role, as in pregnancy

CA, MA, NJ, NY, and PA residents, please add sales tax. Canadian residents, please add 5% GST. Please add \$5.00 for shipping one book and \$1.00 for each additional book. Outside the US and Canada add \$10.00 for first book, \$5.00 for each additional book. All orders are processed upon receipt. If an order cannot be fulfilled within 90 days, payment will be refunded upon request. Prices are payable in US currency or its equivalent. Remember, your 30-day return privilege is always guaranteed. Pre-publication pricing: Unless otherwise stated, pre-pub prices are valid through the end of the third month following publication, and therefore are subject to change.

All € and £ prices are net prices subject to local VAT, e.g. in Germany 7% VAT for books and 19% VAT for electronic products. Pre-publication pricing: Unless otherwise stated, pre-pub prices are valid through the end of the third month following publication, and therefore are subject to change. All prices exclusive of carriage charges. Prices and other details are subject to change without notice. All errors and omissions excepted. Please consult springer.com for information on postage.
